Metals & Materials from A to Z in the Goodfellow Product Directory

Oakdale, PA ... April 6, 2010 ... The latest Goodfellow Directory of Metals & Materials is now available to scientists and engineers seeking small quantities of metals, alloys, polymers, ceramics, and composites for basic research, product development and prototyping. The Directory contains details of approximately 50,000 items, including specifics about forms and dimensions; typical analyses; and atomic, physical, electrical, thermal and mechanical properties. There are also comparative data tables for metals, polymers and ceramics. Up-to-date pricing for the products can be accessed at www.goodfellowusa.com.

Goodfellow's comprehensive website and online Catalog. To receive a copy of the Goodfellow Directory of Metals & Materials, send an email to info@goodfellowusa.com with *Directory Request* on the subject line. For more than 40 years, the Goodfellow name has been synonymous with small quantities of high-quality metals, polymers, ceramics and other materials that meet the research, development, and specialized production requirements of science and industry worldwide. Goodfellow Corporation is part of the Goodfellow Group of Companies, which also includes Goodfellow Cambridge Ltd., The Technical Glass Company (UK), Goodfellow SARL, Goodfellow GmbH, and the Shanghai Representative Office of Goodfellow Cambridge Ltd.
