

**FOR IMMEDIATE RELEASE  
JANUARY 2011**

## **Custom Glass Formulations**

**Huntingdon, UK ... January 27, 2011 ...** Goodfellow, through their affiliate The Technical Glass Co. ([www.goodfellow.com/technicalglass](http://www.goodfellow.com/technicalglass)), can supply custom glass formulations for use in a wide range of technical fields. These highly specialized glass compositions can be supplied in quantities as small as 1kg, with custom particle size distributions and properties tuned for specific applications.

Potential areas of use include:

- coating of electronic components
- biomedical applications
- defense
- opto-electronics
- waste management
- nuclear applications
- optics and filters

Modifications can also be carried out to existing compositions to adjust properties such as color, viscosity and density.

The Technical Glass Company, part of the Goodfellow Group of Companies, supplies a wide range of ceramics, ceramic components and specialist glass for scientific and industrial applications. The company's professional staff has extensive knowledge of ceramic and glass products, properties and applications, as well as practical, hands-on experience in product development, manufacturing and technical problem solving.

For more than 40 years, the Goodfellow name has been synonymous with small quantities of high-quality metals, polymers, ceramics and other materials that meet the research, development, and specialized production requirements of science and industry worldwide. Goodfellow Cambridge Ltd. is part of the Goodfellow Group of Companies, which also includes The Technical Glass Company (UK), Goodfellow Corporation, Goodfellow SARL, Goodfellow GmbH, and the Shanghai Representative Office of Goodfellow Cambridge Ltd.
